---

SUMMARY

Systems Architect, Co-Founder at eHom Technologies, Published Technical Author (Packt), and CS Educator with 8+ years of experience across Linux/FreeBSD storage, computer networks, cloud infrastructure, and embedded/Android systems.

EXPERIENCE & QUANTIFIED OUTCOMES

1. Co-Founder & Systems Architect - eHom Technologies (2020 - Present)
   * Architected turnkey Linux/OpenMediaVault/ZFS NAS appliances, cutting 3-yr TCO by 68%.
   * Engineered automated local + remote encrypted backups (99.98% durability, 2.5GbE).
2. Assistant Professor / Lecturer in Computer Science & Engineering (2016 - Present)
   * Taught 1,200+ undergraduate CS/IT students across Mumbai University colleges.
   * Mentored 35+ final-year hardware and distributed systems capstone projects.
3. Published Technical Author - Packt Publishing UK (2018 - 2019)
   * Authored Getting Started with Object-Oriented Programming in Python 3.
4. Creator & Maintainer - BitPerfect-DAC & hungryGMS (@varunpilankar)
   * Open-source Android audio HAL & kernel wakelock modules (42% idle drain reduction).

TECHNICAL STACK & EDUCATION

* Systems & OS: Linux (Debian, Arch, OMV), FreeBSD, OpenZFS, Docker, Proxmox, WireGuard
* Languages: Python 3, C, C++, POSIX Shell / Bash, SQL, TypeScript (Astro)
* Education: M.Sc. & B.Sc. in Computer Science - University of Mumbai
